# General Travel Rules

2 Medicine Bags

- Take a quick picture of your check-in bag(s), so if its lost, you have a visual description of the bag.
- When we check your bags at the airport,

□ Name Tag & Lanyard (Check for accuracy)

Awe Star baggie with travel documents

- Please make sure your bag is tagged to our final destination: Beirut, Lebanon
- Please be positive, respectful & kind at all times.
- Please maintain a Christian witness with your attitude, actions, and words.

- No joking about bombs, terrorism, covid, or weapons. National Security in the USA and abroad take this very seriously. Especially to those travelling to/from The Middle East region of the world.

#### **Once You Have Boarded Your Flight:**

<u>Do not place</u> any travel documents in the seat pocket in front of you. Place them in an inside pocket of your back pack.

- On the flight begin anti-jet lag prevention (https://www.mayoclinic.org/diseases-conditions/jet-lag/symptoms-causes/syc-20374027)
  - Regulate bright light exposure. Because light exposure is
    one of the prime influences on your body's circadian rhythm,
    regulating light exposure may help you adjust to your new
    location.
  - Stay on your new schedule. Set your watch to the new time zone before you leave. Once you reach your destination, try not to sleep until the local nighttime, no matter how tired you are. Try to time your meals with local mealtimes too.
  - Stay hydrated. Drink plenty of water before, during and after your flight to counteract the dehydrating effects of dry cabin air. Dehydration can make jet lag symptoms worse. Avoid alcohol and caffeine, as these can dehydrate you and affect your sleep.
  - Try to sleep on the plane if it's nighttime at your destination. Earplugs, headphones and eye masks can help block out noise and light. If it's daytime where you're going, resist the urge to sleep.

Use wisdom on the plane as you engage with other passengers.
