

# Vaccinations

You should be up-to-date on all routine vaccinations, which include Measles, Mumps and Rubella (MMR), Diphtheria – Tetanus – Pertussis (dTP), Varicella/Chickenpox, and Polio. The CDC suggests you receive an annual flu shot.

You are **required** by Awe Star to have the following vaccinations before going on a trip with us, and we require a copy of vaccination records for your missionary file.

It is highly suggested by the Centers for Disease Control (CDC) for all travelers to have these vaccinations, based on locations of travel.

Vaccine	Guatemala
Hepatitis A	X
Typhoid	X
Tetanus*	X

**\*If you don't remember when you had your last tetanus shot, you should get a booster. You should have a tetanus shot every ten years.**

**Vaccination costs are not included in your trip costs. Additional funds can be raised to assist with the costs of vaccinations.**

**There are additional vaccinations recommended by the CDC for some travelers, based on location and length of travel. Awe Star Missions does not require that you receive these additional vaccinations to go on a trip with us. Please refer to the [CDC website](http://wwwnc.cdc.gov/travel) ([wwwnc.cdc.gov/travel](http://wwwnc.cdc.gov/travel)) for a listing of any additionally recommended vaccinations.**

**If you have questions, please call the office at 1-800-AWE-STAR.**
